21st September 2023

Dear Parent/Carer

Year 10 Trial Results and Year 11 After-School Boost Sessions

I am sure you are aware that in July your child received their GCSE Trial Exam results based on the papers they sat in June – we have today given them a copy of this letter and a reminder of their Trial Exam grades.

The Trial Exams are a good indicator of a students’ understanding of each subject at that point in time. The results should be taken in the context of how well prepared your son/daughter was when the exams were taken. For example, had they done a lot of sustained revision and preparation or was there a lot of last-minute cramming? Please have a discussion with your child about their results and how they are feeling but also about the positive steps that can be taken to improve even further. There will be another **full set of Trial Exams in November**.

Boost Sessions at school

Following the successful and positive Big Revise event that was held yesterday and part of our continued efforts to get the very best possible outcomes for all of our students in their Year 11 subjects, the school is commencing after school subject Boost sessions. These tailored sessions will empower students to address gaps in understanding that have been revealed in the Year 10 Trial Exams as well as to discuss any assessment preparation and revision support. These sessions will begin from **next week** (week commencing 25th September 2023). All sessions take place from 2.45pm to 3.45pm. Creative subjects will run invite sessions throughout the week and will contact you separately about these.

Monday	Tuesday	Wednesday	Thursday
Maths	English	Science	Geography History Languages

Attendance and a positive impact on grades

We strongly encourage **all** Year 11 students to attend as many Boost sessions as possible. The sessions will ensure that students are given the opportunity to close any gaps in their subject knowledge and also to ensure that we can continue to make accurate judgements on their subject progress. We expect the students to have the **highest standards of conduct and behaviour** during all sessions and we reserve the right to ask students to leave sessions if they are disrupting the sessions in any way.

Last year, Boost sessions **proved** to have a really **positive impact** on improving a student's subject knowledge and final grades. Humphrey Perkins really appreciates and values your support in encouraging your son/daughter to attend the sessions to help them secure the best possible grades for their future.

Thank you for your continued support.

Yours sincerely,

Rikki Khakhar
Vice Principal
