12 July 2023

Dear Parent/Carer,

As your child is moving into their exam year in 2023-2024 we are writing to tell you about an exciting new resource, that we have invested in, to support them to achieve the best possible outcomes in Maths.

Complete Maths TUTOR is an Intelligent Tutoring System, which brings the benefits of traditional tutoring, but through clever technology. It continuously diagnoses your child's Maths attainment to respond to their individual needs.

Your child has been introduced to the system in school and has access to their account. They should have had a chance to complete the initial diagnostic assessment, which helps to identify where they should begin working. One of the aims of the system is to identify and address any gaps in your child's knowledge that might otherwise hold them back. They will also have been set a 'course' to work on in the summer holidays, which will help them be ready to make the best possible progress next year.

You can create a free parent/carer account on the system, which will allow you to monitor your child's progress and encourage them in their engagement with the platform. Details of how to set up and connect your account, as well as more information about the Complete Maths TUTOR system, are in the 'TUTOR for Parents' guide.

The guide can be found at the following link:

<https://bit.ly/tutorparents>

The content in the system is organised into 'Courses', which contain 'Ideas', each of which is split into 'Goals'. When they are set work it will be to complete a certain number of Goals. They are of course encouraged to work independently on more content than that which has been set. There is also a 'Memory Boost' section, which is a daily set of five questions that allow them to practice content they have worked on recently. This works well on phones (as does all the content) Why not encourage them to see how long they can continue a daily streak on Memory Boost?

As part of the work they should complete their questions from the 'Example Problem Pairs' on paper. In the Autumn term they will be provided with an exercise book for this purpose, however they should get into the habit of doing this now using their existing Maths exercise book or some other paper.

We appreciate your support in encouraging your child to fully engage with Complete Maths TUTOR. The more they engage with the system, the more it will help them to achieve excellent results next year.

Kind regards,

Samantha Grocock
Head of Maths

Tim Dolan
Lionheart Trust Associate Director of
Curriculum and Director of Maths
